

North Carolina Conservation Planning Tool

TABLE OF CONTENTS

EXECUTIVE SUMMARY

1. INTRODUCTION

2. NEED FOR STRATEGIC CONSERVATION PLANNING

- Threats to our Natural Landscape
- Strategic Conservation Planning Benefits
- Valuing Ecological Benefits
- Assessing Ecological Benefits
- Essential Ecosystem Resources

3. STRATEGIC APPROACH TO CONSERVATION PLANNING

- Identifying Essential Natural Resources
- Evaluation of Ecosystem Resources and Functions
- Assessment Development Process
- Conservation Decision Support

4. BIODIVERSITY AND WILDLIFE HABITAT ASSESSMENT

- Introduction
- Methodology
- Basis for Ranking
- Maximum Ranking Approach
- Data Sources and Ranking

5. OPEN SPACE AND CONSERVATION LANDS ASSESSMENT

- Introduction
- Data Sources
- Planning for Expansion of State Parks System
- Other Future Open Space Needs

6. AGRICULTURAL LANDS ASSESSMENT

- Introduction
- Methodology
- Basis for Ranking
- Data Sources and Ranking

7. FORESTRY LANDS ASSESSMENT

- Introduction
- Methodology
- Basis for Ranking
- Data Sources and Ranking

8. COORDINATING LAND USE AND CONSERVATION EFFORTS

9. UTILIZATION OF THE CONSERVATION PLANNING TOOL

APPENDICES:

Appendix A: Essential Ecosystem Resource Assessments (diagram)

Appendix B: Data Sources

1. Biodiversity and Wildlife Habitat
2. Open Space and Conservation Lands
3. Agricultural Lands
4. Forestry Lands

Appendix C: Relative Data Layer Ranking for Biodiversity and Wildlife Habitat

Appendix D: Landscape Habitat Indicator Guilds

Appendix E: Technical Documentation for Biodiversity and Wildlife Habitat

Appendix F: References
